Dear Sir;

Pleasefind enclosed a copy of the metals analyses performed on the groundwater samples obtained from the Alleghany County Landfill on August 30, 1993. These samples were obtained in order to correct a laboratory error on the first samples. The detection limits on the first samples were not in accordance with state regulations.

The analyses do not indicate any Cadmium or Mercury contamination above the 2L regulations. A copy of the results have been sent to the NCDEHNR Solid Waste Division in Raleigh.

Please feel free to contact us at 919/896-1300 if you have any questions or if we can assist you in any other matter.

Sincerely,
GEOSCIENCE AND TECHNOLOGY, P.A.

R. Jeff. Wyatt
Senior Hydrogeologic Technician
