Ms. Kelly Guage
1002 Meadowood Rd.
Greensboro, NC 27409

Dear Ms. Guage,

Enclosed is a copy of the letter from Legacy Enviornmental concerning the two stockpiles located at the Colfax site.

Our intentions at this point is to spread it out on the surrounding Worth Ind. property.

Sincerely,

Charles Whistenant

Mr. Roger Brewster
Arnold Equipment Company, Inc.
PO Box 18207
Greensboro, NC 27419

Reference: Stockpile Sampling
Worth Industries
Colfax, North Carolina

Dear Mr. Brewster:

We have received and reviewed the analytical results for the stockpile sampling at the above referenced facility. The field activities consisted of obtaining a composite sample from each of the two stockpiles on two different days and delivering the samples to the laboratory for Arnold Equipment Company, Inc using DEM sampling guidelines.

Based on these results, additional sampling should not be required. We recommend transporting this material to an approved soil recovery facility for final disposition. This letter report should be forwarded to NCDEHNR via Guilford Health Department for approval at the following address:

Ms. Sharon Cihak
Guilford County Health Department
301 North Eugene Street
Greensboro, NC 27419

Sincerely,

Ed Setzer, Senior Chemist
