Re: November 2000 Analytical Results-Buncombe County Landfills

Dear Mark:

Enclosed please find summaries of the analytical results from the November 2000 sampling event for both the old and new Buncombe County Landfills. As you are aware, the entire electronic data set was previously submitted to DEHNR in March 2001. Per your request, the attached summaries have been prepared to facilitate DEHNR's review of the detected constituents and exceedances of the 2L Standards. Please note that there were no exceedances for the new landfill.

Also attached are the potentiometric surface maps for both landfills.

If you have any questions or comments concerning this matter, please give me, or Phil Cook a call at (561) 689-7275.

Sincerely,

PBS&J

Geoffrey M. Burke, P.G.
