Same as above

PARTICIPANTS:

Will Burke, Environmental Senior Specialist
 Chester Cobb, Soil Scientist

STATUS OF PERMIT:

Active

PURPOSE OF SITE VISIT:

Routine, Audit

OBSERVED VIOLATIONS

- 1) Upon arrival to the site, evidence of application of septage to the far back field was noted. Sanitary papers, a notable odor consistent with septage land application, and actual septage applications were found. Mr. Singletary was notified by cell phone by Will Burke of these findings; Mr. Singletary confirmed that he had applied approximately 3000-4000 gallons of septage to this area recently and would stop applications immediately.
- 2) A five foot by ten foot section of "grease burn" was noted in the North East corner of the field.

FACILITY COMPLIANCE INSPECTION REPORT
Division of Waste Management
Solid Waste Section

Page 2 of 2

The item(s) listed above were observed by Section staff and require action on behalf of the facility in order to come into or maintain compliance with the Statutes, Rules, and/or other regulatory requirements applicable to this facility. Be advised that pursuant to N.C.G.S. 130A-22, an administrative penalty of up to \$15,000 per day may be assessed for each violation of the Solid Waste Laws, Regulations, Conditions of a Permit, or Order under Article 9 of Chapter 130A of the N.C. General Statutes. Further, the facility and/or all responsible parties may also be subject to enforcement actions including penalties, injunction from operation of a solid waste management facility or a solid waste collection service and any such further relief as may be necessary to achieve compliance with the North Carolina Solid Waste Management Act and Rules.

ADDITIONAL COMMENTS

Inspection/Site visit at former SLAS 09-07 to begin re-permitting process. Upon arrival above violations were observed.

Application unpermitted field is a violation of your firm permit and NCGS 130A-291.1

Remember- When applying septage that contains grease, make sure grease is thoroughly diluted with either domestic septage or water to prevent damage to receiving crops.
