6. The land on which this facility is located is described in the deed recorded in:

Deed Book: 1839 Page: 1750 County: Iredell

For the following questions, please fill out based on your records for the period of June 1, 2015 to May 31, 2016.

7. What types of yard waste are accepted at this facility? (check all that apply)

☐ Land clearing debris

Items defined as land clearing debris:

☐ Stumps ☐ Whole trees ☐ Tree limbs

☐ Branches ☐ Untreated wood

☒ Yard trash

Items defined as yard trash:

☒ Grass ☒ Leaves ☒ Brush/shrubs

☒ Other yard trimmings

☐ Other (specify)

8. Provide the quarterly volumes of yard waste (cubic yards) for this facility:

Quarter	Cubic Yards Received	Cubic Yards Removed
June 1 - August 31	6,000	4,000
September 1 - November 30	5,000	
December 1 - February 29	4,000	1,000
March 1 - May 31	5,000	350
Total	20,000	5,350

9. Is this facility a temporary holding site or is material processed on-site? ◯ Temporary Holding Site ◉ Processed on-site

10. If this is a temporary holding site, list the name(s) of the facility (or facilities) where the material is taken to:

Leaves and grass are hauled to Iredell County yard waste site.

11. Describe the composting process used and the use of the finished compost product:

The description of the compost process must minimally include formation of windrows or annual turning of leaves(i.e. passive composting). Temperatures must be monitored daily to maintain a temperature of at least 131°F. If additional processing is done, explain briefly (e.g. usage of tub grinder, monthly aeration, etc.)

Town and Iredell County have entered an agreement to receive and process brush on site. Brush, leaves and grass clippings collected curbside by the town and brush collected at the nearby Iredell County transfer station will be the only sources of material received. Cubic yards received and removed are projected based upon collection data. Leaves and grass clippings generated and collected by the town will be transfered via tractor trailer at regular intervals to Iredell County Yard Waste Site at the Twin Oaks Landfill for composting. Alternative markets such as local produce farmers may also receive material.

they are referring to YWN-49-007, located on Twin Oaks Rd - M.S. 6/30

12. Describe the mulching process used and use of finished mulch product:

The description of the mulching process must minimally include a description of the process, usage of a tub grinder, etc. *If you checked anything under the yard trash category, you must either compost or sell the mulched product for boiler fuel.*

In exchange for allowing utilization of site by County for yard waste delivered to their transfer station (improves their efficiencies, fuel usage and wear on equipment), County will have a contract grinder process all wood waste with tub grinder and haul/market the resulting chips away as part of the contract.

CERTIFICATION: To the best of my knowledge and belief, I certify the information provided in this notification is true, accurate, and complete. Furthermore, the facility will comply with the operational and setback requirements of Small Type 1 Compost (yard waste) facilities as outlined in .1406 and .1404(a)(1)-(10) of the Solid Waste Compost Rules.
