SUBJECT Jackson Co. site visit # 50-02 Active unlined facility

SUMMARY OF COMMUNICATION

- met with Verlon Coggins (operator @ landfill) 704-586-7509. Meeting arranged through Elden Cabe 704-586-7557. Arrived 10:00 am

- MW's did not have identification tags.

- Baseline sampling incomplete (Need 3 more events). V. Coggins said all MW's were recently sampled.

- MW-4 was just recently covered by a large brush pile which was being cleared from the Railroad Right-of-way. Present condition of this MW is not known.

- Several potable wells were located near the landfill. For further details see attached memo to REL & site map.
