Subject: RE: Madison County Landfill Permit 58-02 - Edwards Potable Well Status
Date: Wednesday, April 14, 2010 7:00:13 PM

Ms. Drummond,

The water source project conducted by Altamont is complete and should be coming to you this week or the first of next week. We will ensure that the Edwards' receive a copy as well. I believe staff from the Madison County Health Department have responded to your inquiry regarding water testing. Please advise if you have further requests for us at this time. Thank you,

Steve Garrison, County Manager

Subject: Madison County Landfill Permit 58-02 - Edwards Potable Well Status

Mr. Garrison,
Pursuant to your February 15, 2010 email regarding conducting the "water source project" on February 12, 2010 (please see attached Document 9776), what is the current status of the summary report of the findings as required within the January 7, 2010 letter issued to the County (please see attached Document 9254)? In addition, pursuant to the January 14, 2010 letter issued to the County Health Department (please see attached Document 9306), sampling of the Edwards potable well (DW-02-Edwards located at 79 Long Branch Road, Marshall, NC) was

required to be conducted on a monthly basis until an alternate water connection was supplied to the residence. All of the sampling results are to be forwarded to the Solid Waste Section via email (jaclynne.drummond@ncdenr.gov) within 10 days of receiving the sampling results from the State laboratory. To date, I have not received any monthly sampling results for the DW-02-Edwards well from the County. Please let me know the status of the monthly sampling results.
Thank you,
Jackie Drummond
