Greensboro, Guilford County, NC
Incident No. 10001; Risk Ranking: Intermediate

Dear Mr. Medlin,

This office has reviewed the February 20, 1996 Comprehensive Site Assement (CSA) report prepared by ERM-Southeast, Inc. for the subject site and your comment letter of March 9, 1998.

Based on the monitoring data contained in your comment letter, this office will accept that the extent of dissolved hydrocarbons at the site are defined to the south through sampling of MW-9. A revised Comprehensive Site Assessment report will not be required at this time.

This office will accept your proposal to continue to operate the site's AAS / SVE remediation system as an alternate to obtaining current soil samples in "hot spot" areas. Additional sampling may be required at the site in the future.

The trust fund pre-approval requests March 24, 1998 for groundwater monitoring and March 25, 1998 for the replacement of a vacuum relief valve are being processed and will be forwarded to your consultant shortly.

Sincerely,

Sherri V. Knight
