Note to reimbursement claimants: Proposals are required to elaborate on the costs for the tasks listed below and describe the scope of work and the rationale for conducting these activities. Pre-approval from the appropriate regional office for tasks that could have been reasonably anticipated or for tasks that were inadvertently omitted in the original task authorization, also requires a "CHANGE ORDER FORM" to be submitted and approved by the appropriate regional office. Written justification(s) must be provided to the regional office before a change order can be granted. When all authorized work is completed and the claim is to be compiled, it is **required** that a copy of the approved and signed (by the region) "TASK AUTHORIZATION FORM" and any previously approved "CHANGE ORDER FORM" with written justification be incorporated into the claim. Claims will not be processed without these documents. *Final reimbursement of costs associated with the above authorized amount may vary depending on eligibility status of the site (i.e., deductibles, apportionment, etc.). Costs associated with developing and submitting a proposal, the task authorization or change order form are not reimbursable.*
