Telephone: ____/____/____

Affiliation: ____

Discussion: Installed several shallow & deep wells. Should have results of sampling back in several days. Want to backfill hole for 30K tank. Told them they could fill hole if they wanted to but they would still have to address soil contamination assoc. w/ UST. If excavation isn't an option due to artificial conduits underground then they should explore alternate remediation technique. Reminded them of deadlines in NOR.
