C

Name: Mr. Deane Fortune

Date: 4-28-86

Time: 11:00

Company/Agency: Burlington Industries - Transportation Division

Telephone: (919) 228-2260

Briefly Describe Incident

Underground lines leaked < 100 gal. 50W gear oil on 4-26-86. Oil was noticed seeping up through cracks in asphalt. Surface contamination cleaned up with straw and oil dry. Approx. 6" - 8" soil beneath lines was removed.

REPORTED BY: 1. Responsible party 2. Government agency 3. Private party

RECOMMENDED ACTION

D

1. Investigation complete
2. Continue investigation
3. Initiate/complete cleanup
4. Long-term remedial action
5. Technical support
6. Drill crew
7. Enforcement action
8. Monitoring plan

Comments: On site investigation (4-30-86) revealed removal of all contaminated soil surrounding lines thus halting any migration of contamination to groundwater supplies. We feel that no further action is required at this time.
