5/26/93

Sharon,

High Falls Oil Co. has agreed to finish this work at S. East Airport. I remembered meeting Vernon when he did business with the Stanleys who were running the airport, and recalled that they have done quite a bit of this work.

I talked with him long distance on his truck phone, + he will be here Tues. to finalize all the details with the proper dept.

I feel fortunate in finding anyone to take over at this point, + I will never understand what Four Seasons had in mind.

I hope this informal note will suffice until High Falls gets here.

Thanks,
Helen Williams
