May 24, 1993.

Sharon,

This letter is to let you know of my intent to comply with any & all of Environmental Regulations. I am so pushed & addled that right now I can't even find my certified letters. I have, however, come up with what I think is the fastest way to get this job done.

My neighbor, Martin D. Fields, 5757 Hagan-Stone Park Rd, will be either able to do this himself or to advise me the best way. I will mail this right now, so that you will get it tomorrow, & tomorrow I will mail you the exact details.

I really appreciate your patience & understanding, as I really thought when contracted last Dec. with Four Seasons that they were going to complete this job.

Thanks,

Helen Williams
