Re: Notice of No Further Action
15A NCAC 2L .0407(d)
Risk-based Assessment and Corrective Action
for Petroleum Underground Storage Tanks

Paschal's Texaco
3038 US Hwy 158, Reidsville, NC
Rockingham County

Dear Mr. Barnwell:

The Underground Storage Tank (UST) Closure Report received by the Underground Storage Tank (UST) Section, Winston-Salem Regional Office on February 1, 1996 has been reviewed. The review indicates that after tank closure soil contamination does not exceed the lower of the soil-to-groundwater or residential maximum soil contaminant concentrations (MSCCs), established in Title 15A NCAC 2L .0411.

The UST Section determines that no further action is warranted for the referenced tank closure. This determination shall apply unless the UST Section later finds any contamination that was not found during the tank closure and the contamination poses an unacceptable risk or a potentially unacceptable risk to human health or the environment. Pursuant to Title 15A NCAC 2L .0407(a) you have a continuing obligation to notify the Department of any changes that might affect the risk or land use classifications that have been assigned.

This No Further Action determination applies only to the subject tank closure; for any other incidents at the subject site, the responsible party must continue to address contamination as required.

If you have any questions regarding this notice, please contact me at the address or telephone number listed below.

Sincerely,

Shuying Wang
Hydrogeologist
