Subject: Time Extension Request

Jackie:

Based on a recent conversation between Scott Brown with CEC and myself, we believe it is in our client's best interest to focus on completing the items already in progress for the closed North Mecklenburg C&D Landfill (NMLF) prior to conducting further site investigations on the NMLF-Infill and Highway 49 facilities. To this end we are requesting an extension until April 30 to submit the Proposed Contaminant Delineation Plans for these landfills. The remainder of the requested items for the closed NMLF site will be submitted by April 18, as approved previously by the DENR. Thank you for your consideration in this matter.
