CALL TO: Douglas Guild - 919-260-6185

CALL FROM: George Adams

DATE/TIME: 2-17-14 - 1335

RE: Parkway Chevrolet Asheville #1833L

TELEPHONE LOG:

2-17-14
1335 => I left a message for a return call on Doug's voice mail.

2-19-14 Doug left a message his cell is
1641 919-260-6185 - can call back here

2-21-14 I left a message on Doug's cell
1301 for a return call.

1414 => Dave Guild => phone tag =>
(919) 260-6185

1630 => I called him back and spoke about the site. He said he was familiar with the reports and I said we would be addressing the hot waste issues now. He said GW elevation from the DEQ report was MW-1 @ 22.17, MW-2 - 18.8' and MW-3 12.5' BTOC. He said this dealership had enough lifts to work on utility vehicles and most of the contamination was under the truck shop - also there was where lifts in the detail shop - He said they tried to excavate out the soil but couldn't.

Phone: (704) 663-1699 Fax: (704) 663-6040

I would send a notice but wanted some quick info and wanted to introduce.

He said the Monticello well was uphill and GW flow was away But I said there was no vertical extent well - so better to just eliminate it if the mobile home park was on connection

Adams, George

Subject: Groundwater Incident # 18332

Douglas,

We are providing oversight of the assessment and cleanup of hazardous substances that may have been released at or near the Park Chevrolet in Asheville, North Carolina. I have a couple of quick questions about the Bi-Annual Groundwater Monitoring Report that you submitted to the UST section at the ARO in December 2013. I left a message on your voice mail, but I thought it might be handy to get an email as well.

Do you know the groundwater depth, elevation, or BTOC depth to groundwater in the monitor wells? I wasn't able to find a measurement since 1998.

Do you know the utilization status of the Monticello community well? Our information suggests that the mobile home park may be receiving municipal water.

Do you know what properties in the vicinity of the Site are not served by Asheville municipal water? Your report indicates that most but not all properties are connected.

Please respond to this email when time permits and contact me if you have questions - George
