ADDITIONAL COMMENTS

1. The Septage Land Application Site consists of one 10.5 acre field.
2. The site is permitted for land application of domestic septage and grease septage.
3. The site is located on Mizpah Church Road directly across from Penn Road and has an accessible all-weather road to the site. The access road has been recently graveled.
4. Total maximum application rate is 50,000 gallons per acre per year, and total maximum application rate for the site is 525,000 gallons per year.
5. Appropriate signage in place as per requirements.
6. Disposal area boundaries clearly delineated with permanent markers.
7. Set backs from land application areas to property lines (50 feet) and wells/residences/businesses (500 feet), including nearby church property and mobile home park are maintained.
8. The site has an approved above ground septage detention system (SDTF 79-02).
9. Approved Nutrient Management Plan requires fescue as vegetative cover.
10. Good vegetative cover over field, hay was harvested during spring as per nutrient management plan.
11. The field appears to have been minimally utilized.
12. Most recent land applications appeared to be evenly distributed with no evidence of standing liquids from previous applications.
13. No offensive odors observed from previous land application operations.
14. The Permit to Operate expires January 24, 2013. **An application for renewal of the permit should be submitted 90 days (November 22, 2012) prior to the permit expiration date.**
