Re: Yard Waste Notification – Johnston County
MW Waste and Recycling, Inc – YWN51008

Dear Mr. Weeks,

The Solid Waste Section has received your yard waste facility notification form. As long as your facility only processes and stores less than 6,000 cubic yards of the following materials on a quarterly basis, you can continue to operate by notifying the Section on an annual basis **by June 1st of each year**. If your composting activities grow in size to more than 6,000 cubic yards quarterly or exceed the 2 acre size limitation please contact the Solid Waste Section for assistance in obtaining a permit.

Facilities operating under notification shall only receive:

a. Untreated and unpainted wood waste.

b. "Silviculture Waste" as defined in 15A NCAC 13B .0101(41); waste materials produced from the care and cultivation of forest trees, including bark and woodchips.

c. "Yard Trash" as defined in 15A NCAC 13B .0101(55); solid waste resulting from landscaping and yard maintenance such as brush, grass, tree limbs, and similar vegetative material.

d. "Yard Waste" as defined in 15A NCAC 13B .0101(56); yard trash and land clearing debris to include stumps, limbs, leaves, grass, and untreated wood.

Facilities operating under notification are required to operate in accordance with 15 NCAC 13B .1406 and .1404(a)(1)-(10).

If you have questions or if we can be of any other assistance please do not hesitate to contact the Environmental Senior Specialist, Liz Patterson at 919-707-8286.

Sincerely,

Martin A. Gallagher

Martin A. Gallagher, Environmental Supervisor
Composting & Land Application Branch

Street 2:	Street 2:
City: Benson	City: Benson
State: North Carolina Zip: 27504	State: North Carolina Zip: 27504

6. The land on which this facility is located is described in the deed recorded in:

Deed Book: 4152 Page: 687-689 County: Johnston

For the following questions, please fill out based on your records for the period of June 1, 2015 to May 31, 2016.

7. What types of yard waste are accepted at this facility? (check all that apply)

[X] Land clearing debris

Items defined as land clearing debris:

[X] Stumps [X] Whole trees [X] Tree limbs

[X] Branches [X] Untreated wood

[X] Yard trash

Items defined as yard trash:

[X] Grass [X] Leaves [X] Brush/shrubs

[X] Other yard trimmings

[ ] Other (specify) _____

8. Provide the quarterly volumes of yard waste (cubic yards) for this facility:

Quarter	Cubic Yards Received	Cubic Yards Removed
June 1 - August 31	< 6,000	< 6,000
September 1 - November 30	< 6,000	< 6,000
December 1 - February 29	< 6,000	< 6,000
March 1 - May 31	< 6,000	< 6,000
Total	< 24,000	< 24,000

9. Is this facility a temporary holding site or is material processed on-site? ○ Temporary Holding Site ● Processed on-site

10. If this is a temporary holding site, list the name(s) of the facility (or facilities) where the material is taken to:

11. Describe the composting process used and the use of the finished compost product:

The description of the compost process must minimally include formation of windrows or annual turning of leaves(i.e. passive composting). Temperatures must be monitored daily to maintain a temperature of at least 131°F. If additional processing is done, explain briefly (e.g. usage of tub grinder, monthly aeration, etc.)

All materials to be compost (green-organic) will be run through a grinder or chipper. Materials will be put in a row. Composting is a controlled decomposition of organic waste by naturally occuring bacteria, yielding a stable, humus like, pathogen-free final product resulting in volume reduction of 30-75%. Temperature record will be kept showing at least 131 degrees F was maintained for 3 consecutive days per week so as to meet minimum pathogen reduction requirements before final compost is distributed. These records will be available for a field inspector upon request.

12. Describe the mulching process used and use of finished mulch product:

The description of the mulching process must minimally include a description of the process, usage of a tub grinder, etc. *If you checked anything under the yard trash category, you must either compost or sell the mulched product for boiler fuel.*

All trees, tree limbs, untreated wood and non-engineered wood/wood products will be ran through a grinder/chipper (also reducing the cubic volume) then stored on site until removed.

CERTIFICATION: To the best of my knowledge and belief, I certify the information provided in this notification is true, accurate, and complete. Furthermore, the facility will comply with the operational and setback requirements of Small Type 1 Compost (yard waste) facilities as outlined in .1406 and .1404(a)(1)-(10) of the Solid Waste Compost Rules.
