David,

I have no objection to these modifications.
I merged your maps with this e-mail and gave it a Document ID number (#8595) that is logged into our database under http://wastenotnc.org/sw/swdocuments.asp?PermitID=1304-MSWLF-1992.

Thanks also received the hard copies.

Brian

Subject: CMS Phase 3 Design Hydro Drawing Revision - 1 of 3

Gentlemen, it was brought to my attention that the base grades prepared by HHNT changed slightly since we issued the Design Hydro report just over a year ago. The changes do not adversely affect vertical separation – these revised drawings were updated per today's date for completeness. The attached image is a 24 x 36 inch format of the GW Contours of April 2007. Due to the size of the pdf images I will need to use three separate transmissions. Paper copies are forthcoming later this week to the recipient list.

Please contact me with any further comment or questions. Thank you.
