Subject: *Quarterly Progress Report – 4th Quarter 2014*
IHSB Site Name: River Road
IHSB Site ID No.: NONCD0002931

Dear Mr. Aufman:

On behalf of Harvey Point Defense Testing Activity, CH2M HILL is pleased to submit the Quarterly Progress Report for the River Road Disposal Area in Hertford, North Carolina. The work is progressing in a manner to achieve the mandatory work phase completion deadlines and continues on schedule to meet the time frame outlined in the REC Administrative Agreement. Please contact me at 757-671-6231 if you have any questions or comments.

Sincerely,
CH2M HILL

Kim Henderson
Registered Site Manager

Progress Report
IHSB Site Name: River Road
IHSB Site ID No.: NONCD0002931
October 16, 2014

Site Background

The River Road Disposal Area is comprised of two unlined disposal areas separated by a drainage ditch. The site was discovered by facility personnel in September 2012. Preliminary soil sampling was conducted in November 2012 and the results indicated the presence of volatile organic compounds, semi volatile organic compounds, pesticides, and metals. The site was entered into the Registered Environmental Consultant (REC) program on October 3, 2013. Planning for the Phase I Remedial Investigation is in progress. The Phase I Remedial Investigation Work Plan was submitted in May 2014. However, the investigation cannot be initiated until the Explosives Safety Submission (ESS), which is being developed to ensure applicable Department of Defense regulations and standards are applied and health and safety procedures are identified and implemented during the Remedial Investigation, is endorsed by Department of Defense Explosives Safety Board (DDESB).

Work Performed in Prior Quarter (July to September 2014)

- Continued planning the Phase I Remedial Investigation field activities
- Responded to Naval Ordnance Safety and Security Activity (NOSSA) comments on the revised draft ESS

Work Anticipated to Be Performed in Upcoming Quarter (October to December 2014)

- Resolve NOSSA comments on the ESS
- Submit the final ESS to NOSSA for endorsement and submittal to the Department of Defense Explosives Safety Board (DDESB) for their review and approval
- Initiate the Phase I Remedial Investigation field activities

Project Progress

The project continues to proceed in a manner to achieve the mandatory work phase completion deadlines set out in the REC Administrative Agreement for the site. This includes completing the Remedial Investigation by October 2016.

REGISTERED SITE MANAGER CERTIFICATION OF SIGNATURES

As the Registered Environmental Consultant for the Site for which this filing is made, I certify that the signatures included herewith are genuine and authentic original handwritten signatures and/or true, accurate, and complete copies of the genuine and authentic original handwritten signatures of the persons who purport to sign for this filing. I further certify that I have collected through reliable means the originals and/or copies of said signatures from the persons authorized to sign for this filing who, in fact, signed the originals thereof. Those persons and I understand and agree that any copies of signatures have the same legally binding effect as original handwritten signatures, and I certify that any person for whom I am submitting a copy of their signature has provided me with their express consent to submit said copy. Additionally, I certify that I am authorized to attest to the genuineness and authenticity of the signatures, both originals and any copies, being submitted herewith and that by signing below, I do in fact attest to the genuineness and authenticity of all the signatures, both originals and copies, being submitted for this filing.
