REC-AA (REV. 12/16/10)
DOCKET NUMBER 10-SF-329
Effective Date June 4, 2010

STATUS UPDATE:
CATLIN Engineers and Scientists is proceeding with completion of a Remedial Action Plan for the referenced project. We have completed the Soil Health Based Remediation Goal adjustment and averaging and are currently evaluating the adjusted/averaged effects on site remediation options, Protection of Groundwater Goal requirements for identified metals and the recent PSRG changes.

In November 2014 Jeffery K Becken, the RSM who was calculating the adjusted/averaged effects on site remediation options, passed away. CATLIN is evaluating the notes and data from Jeff's efforts but there will be a delay in providing these results.

Work is progressing in a manner to achieve the mandatory work phase completion deadlines set out in 15A NCAC 13C.0302 (h) however, there may be a delay in accomplishing these actions.
