SUBJECT: Land Clearing and Inert Debris Landfill, Permit 19-B
Willamette Industries, Inc. - Moncure Division

Dear Mr. Hearn:

Please find enclosed a series of pictures taken on July 21 at Moncure Division's closed LCID Landfill. The purpose of these pictures is to provide evidence of established vegetative cover, erosion control and stormwater drainage. A sketch indicating the viewpoint of each picture has been attached.

Willamette completed the landfill closure work in July 1998, and has been monitoring the site quarterly for signs of erosion or stormwater drainage problems. Considering the site's progress, Willamette requests a closure letter from DENR for the landfill which retires Permit 19-B.

If you have any questions about the LCID landfill or need additional information, feel free to contact me at (803) 802-8114 or Mr. Darrell Keeling, Plant Manager, at (919) 542-2311. Thank you for your continued assistance with this closure project. We look forward to hearing from you.

Sincerely,

Richard H Hamilton
