Wayne Co - Dudley
App Subtitle D sampling history

9-8-94	1-2-3-4-5-6-7-8		App I.
	MW-8	Vinyl chloride	13 ppb
	MW-6	Ethylbenzene	83 ppb
	MW-2	Chloro-benzene	36 ppb
10-20-94	1-2-3-4-5-6-7-8		APP I
	MW-8	Vinyl Chloride	11 ppb
	MW-2	chlorobenzene	31 ppb
	MW-6	Ethylbenzene	61 ppb
1-5-95	1-2-3-4-5-6-7-8		App I
	MW-2	Chlorobenzene	22 ppb
	MW-6	Ethylbenzene	42 ppb
	MW-8	Chlorobenzene	32 ppb
3-23-95	1-2-3-4-5-6-7-8		App I
	MW-2	Chlorobenzene	22 ppb
	MW-6	Acetone	145 ppb
		Ethylbenzene	104 ppb
		Xylenes	141 ppb
	MW-8	VOCs	< 2L

7/26/94 - BL letter - interim authorization of upgrade of monitoring system. ie. - transition plan submittal
- Entire site to be monitored as one units appears to be the intent.

7-18-95 2-3-4-5-6-7-8 App II

App II MW-8 Hg 3.7 ppb.

MW-2 Benzene 5 ppb

MW-6 Ethylbenzene 55 ppb

MW-8 Vinyl Chloride 10 ppb

Benzene 6 ppb

App II MW-6 Napthalene 10 ppb

2-20-96 1-2-3-4-5-6-7-8 App I + detected App II (in general) (did not sample all wells for App II detects)

- well 6 - App I + napthalene (6 ppb ~~non detect~~)
- well 8 - App I + Hg (6.5 ppb)
- All other wells - App I
- MW 6 + 8 - 2L violations

8-29-96 1-2-3-4-5-6-7-8 App I only

MW-6 VOCs < 2L (not sampled for napthalene)

MW-8 VOCs < 2L (not sampled for Hg)

2-4-97 1-2-3-4-5-6-7-8 App I only

MW-6 - Ethylbenzene - 40 ppb

Deficiencies

1 - should have sampled for full App II in 1996 - did not

2. - should be for each downgradient well

2 - has not established background concentrations for detected App II parameters

3 - has not provided statistical analyses for baseline or subsequent sampling events.
