Re: Overdale Road Transfer Station, Permit # **34-16-T**
Winston-Salem, Forsyth County, North Carolina

Dear Mr. Isenhour:

Enclosed is a Permit to Construct and "**draft**" copy of the Permit to Operate for the referenced Solid Waste Transfer Facility and the accompanying conditions for the above referenced facility. This permit replaces and rescinds the permit issued on 2 October 2001 to Tim Beamon and Dogwood Development and Management, LLC for the same facility.

Please note Construction Condition #7, which identifies the pre-operational requirements for this facility that need to be met prior to the issuance of a Permit to Operate. Also note Appendix 1 which shows the counties in the approved service area of 50 miles from the political border of the City of Winston-Salem. If your list of counties in the service area differs from those listed in Appendix 1, please include a revised list for the Section's review with the Operations Plan that will be developed and submitted for approval at a later date. Please review the conditions of the permit carefully and if you have any questions or comments please contact me at (336) 771-4608 ext. 204 or Wendy Simmons at ext. 208 for the pre-operational site inspection.

Sincerely,

Timothy A. Jewett

PERMIT NUMBER: **34-16-T**
DATE ISSUED (PTC): **JANUARY 24, 2001**
FACILITY NAME: **OVERDALE ROAD TRANSFER STATION**

CONDITIONS OF PERMIT

GENERAL:

1. This facility is permitted to receive solid waste as defined in 15A NCAC 13B .0101, except that hazardous and liquid wastes are prohibited from acceptance at this facility.

2. This facility may receive solid waste that is generated within the service area described in Appendix I of this document and shall dispose of said solid waste at the Uwharrie Regional Landfill (Permit No. 62-04) located in Troy, Montgomery County, North Carolina.

3. This permit is valid for five (5) years, as per 15A NCAC 13B .0201(e), according to the issuance date of the permit to operate. Modifications shall be in accordance with the Rules in effect at the time of review.

4. This permit is not transferable.

CONSTRUCTION:

5. This permit is for construction and operation of the transfer facility in accordance with the approved plans. Any revisions or modifications to these plans shall be approved by the NC Solid Waste Section (the Section).

6. All sedimentation and erosion control activities shall be conducted in accordance with the Sedimentation and Pollution Control Act, 15A NCAC 4, and all applicable permits shall be secured prior to construction.

7. The following requirements shall be met prior to receiving a "PERMIT TO OPERATE" from the Solid Waste Section:

   a) Site inspection shall be made by a representative of the Section.
   b) Construction shall have been in accordance with the approved plan.
   c) Three (3) copies of record "as-built" drawings shall be submitted to the Section.
   d) The permit number and the words, "No hazardous or liquid wastes accepted" shall be posted on a sign at the entrance and access controls shall be installed.
   e) Installation of the drains, leachate collection devices, sanitary sewer connections or leachate storage tanks for the disposal of wash down water and leachate shall be operational. The tipping floor shall have positive drainage away from the building entrance and toward the sump in the loading pit or a trench drain shall be installed along the entrance to the tipping floor and conncted to the leachate collection system.

CONDITIONS OF PERMIT

f) Documentation in the form of a deed, recorded survey, or other instrument to show ownership of the facility shall be submitted to the Section.

g) An Operations Plan for the facility shall be developed and submitted to the Section for approval prior to requesting a permit to operate.

OPERATIONAL:

8. Operation of the facility shall occur in accordance with 15A NCAC 13B .0402, "Operational Requirements for Transfer Facilities", the approved operations plan and these additional requirements:

   a. The owner or operator of a municipal solid waste management facility shall not knowingly dispose of any type or form of municipal solid waste that is generated within the boundaries of a unit of local government that by ordinance:

      1. Prohibits generators or collectors of municipal solid waste from disposing of that type or form of municipal solid waste.

      2. Requires generators or collectors of municipal solid waste to recycle that type or form municipal solid waste.

   b. This facility shall be operated in a manner which is consistent with the State solid waste management plan and with the solid waste management plans that have been adopted by those units of local government served by the facility and approved by the Section.

   c. Waste shall not be stored on the "tipping floor" after operating hours. Waste can be stored in transfer trailers, at the facility with covers in place, after operating hours, but no longer than 48 hours.

   d. The tipping floor and transfer trailer loading area shall be maintained in a clean, sanitary condition after operating hours in accordance with the approved Operational Plan.

CONDITIONS OF PERMIT

e. On or before 1 August (or at an earlier date as requested by the Division) of each year, the owner or operator shall report to the NC Solid Waste Section, for the previous year beginning 1 July and ending 30 June, the amount by weight of the solid waste that was received at the facility and disposed of in a landfill, incinerated, or converted to fuel. To the maximum extent practicable, such reports shall indicate by weight the COUNTY of origin of all solid waste. The owner or operator shall transmit a copy of the report to the county in which the facility is located and to each county in which waste originated.
