Re: Transfer Station Permit Renewal
Permit No. 33-02T
Edgecombe County Transfer Station
Edgecombe County, NC
TWC Project No. 2488-AX

Dear Mr. Barber:

On behalf of the County, we request a renewal of the referenced permit to operate the County's Solid Waste Transfer Facility. As background for review of this permit, we have attached the following documents:

1. Letter providing the enclosed permit documents to Larry Hathaway of the County for the County's use dated June 15, 1998.

2. Operations Plan – Edgecombe County Transfer Station – Revised 6/98 bearing the approval stamp of the DSWM.

3. Permit 33-02T for the Transfer Facility.

4. Pump and Haul Approval from DWQ dated June 3, 1998 covering the disposal of the station wash water into the Town of Tarboro WWCS.

The operations of the transfer facility have been modified during the life of this permit and accordingly the following amendments are hereby made and submitted to you for concurrence:

1. Page 1, Paragraph 2 of the Operations Plan: The recipient is the Waste Industries Facility in Bertie County.
2. Page 1, Article 2.1, Paragraph 2: The tipping floor measures 4,200 Square Feet due to a negotiated contract reduction in the floor size to bring the project within available funds. This size has proved adequate for the County's use.
3. A Pesticide Container Building has been added.

301 West 14th Street
Greenville NC 27834

252.757.1096
fax 252.757.3221

4. The service area for the facility has been extended to include not only Edgecombe County, but also Halifax and Nash Counties as well. Please refer to the attached Resolution of the Edgecombe County Board effecting this change.

We trust that this information will sufficiently address the Audit Report dated October 30, 2003 (attached). Please let us know if there are any questions. Thank you for your assistance in this matter.

Sincerely,

THE WOOTEN COMPANY

Re: New Transfer Station
Edgecombe County, N. C.

Dear Larry:

Attached for your use and for your files are one each of the following:

1) Permit #33-02T to operate the transfer station.

2) Pump and Haul Permit.

Please review the requirements for each and call us with any questions you may have.

Sincerely,

THE WOOTEN COMPANY

PERMIT # 33-027

Operations Plan - Edgecombe County Transfer Station
Revised 6/98

The Edgecombe County Landfill is scheduled for closure on or before December 31, 1997. The City of Rocky Mount will no longer ship waste to the County after landfill closure therefore, the expected tonnage of waste will decrease from 250 tons to about 150 tons daily.

Municipal Solid Waste, excluding white goods, yard waste, tires and recyclables are to be received by dumping on the tipping floor, spreading for inspection to verify the waste is receivable as municipal solid waste, and subsequent pushing to a waste hopper at the back of the building. The waste hopper will direct the solid waste to a waiting transfer trailer for subsequent shipping to one of the following:

A. Republic Industries - Bertie County Landfill (Primary Recipient)
B. Browning Ferris Industries - Bertie County Landfill, Roseboro, NC (Alternate)

Yard waste will be composted on the eastern borrow area shown on Sheet 2 of the transfer station plans. Tires will be collected for shipment to Carolina Tire Incorporated at the present location on the western side of SR 1601 at the foot of the landfill. White goods will be collected for shipment to Tarts Incorporated at the same approximate location as the tire collection area. The operating hours of the transfer station will be 8:00 A.M. - 4:30 P.M. on Monday through Saturday.

The equipment used will be two rubber tired articulated front end loaders with quick release buckets and a quick connect trash tamper, two off-road or over the road tractors for pulling transfer trailers, and an agricultural tractor for general mowing and maintenance. Equipment servicing will be carried out at the existing maintenance facility west of SR 1601. Oil and fuel storage and usage will continue to be below the threshold for an NPDES stormwater permit.

An existing well located east of SR 1601 within the existing convenience center will supply wash water for the transfer station. Water is to be stored in a new 1,000 gallon storage tank and boosted to pressure by a new wash water booster pump for daily wash down of the tipping floor. Backup wash water is available from the existing pond behind the existing weigh station west of SR 1601. Potable water will be supplied by a bottled water vendor until such time as the proposed County Water System is extended to the transfer station site.

2.0 OPERATIONS PLAN

The Operations Manger of the Edgecombe County landfill shall maintain and operate the transfer facility in accordance with this Operations Plan. This plan describes the components and procedures for the landfill's developing. Record keeping with regard to receipt of waste will conform with NCAC 1313.1616(10) as referenced in the transition plan.

2.1 DESCRIPTION OF TRANSFER STATION

The Edgecombe County Landfill will cease landfilling operations at the existing site on or before December 31, 1997. The existing active landfill area will be maintained in accordance with the transition plan. Edgecombe County will receive waste at its proposed transfer station west of SR 1601 for shipping to a lined facility or to an incinerator.

The Edgecombe County Transfer Station will consist of a 10,000 square foot covered tipping floor with a depressed truck loading bay for top loading transfer trailers. Compaction will be by means of a loader mounted tamper. The following features will be incorporated into the transfer facility.

RECEIVED
JUN 08 1998
DIVISION OF WASTE MANAGEMENT

APPROVED
DIVISION OF SOLID WASTE MANAGEMENT
DATE 6/2/98 BY DJB

1) The existing weigh scales and weigh station are to be relocated to the west side of SR 1601 as shown on the plans so that receipt of waste may be monitored at the facility entrance and waste tonnage recorded.
2) The tipping floor and loading bay are both enclosed. Wash water will be conducted to large trench drains and plumbed to a sand trap and wastewater holding tank and kept separated from stormwater runoff. Disposal will be by means of pumping the tanks out and hauling to an existing treatment facility in accordance with an NPDES permit.

3) Wash water will be obtained from an existing well and stored adjacent to the tipping floor for use in washing down the floor, hopper and loading bay as needed to maintain sanitary and vector free conditions. A booster pumping station will provide pressure for wash down.

4) Two locked chain-link gates with chain-link and barbed wire fencing will control site ingress at times when the facility is closed.

5) An office facility and storage area will be built adjacent to the tipping floor to allow close supervision of operations by management personnel and to provide easy access to records, permits, operations plans and emergency information.

6) An emergency eyewash will be provided for the safety of the County staff.

7) Large ventilator fans capable of changing the tipping floor building air at least 30 times per hour will be provided to minimize harmful or nuisance odors.

8) Extensive lighting both interior and exterior will be provided.

9) Safety rails in accordance with NC Building Codes and OSHA Requirements will be provided.

2.2 WASTE ACCEPTANCE, DISPOSAL AND SCREENING REQUIREMENTS

The waste screening procedures and polices will remain unchanged except the inspection area will be the tipping floor since it is covered and runoff from the floor is isolated from surface water. The County will keep chemical absorption products on hand to control liquid spills should they occur and will call the County Emergency Response Team and the NC Solid Waste Section, should any incidents of hazardous waste spills occur. The receiver of the waste from the waste holding tank will be notified prior to delivery of liquids believed to have possibly been tainted with hazardous wastes. Disposal of hazardous wastes will be in accordance with State and Federal regulations. The party who is responsible for the delivery of hazardous wastes to the site will be held responsible for all costs of proper cleanup and disposal of the waste. Record keeping, cleanup, response, and assessment of damages for hazardous waste spills at the site shall conform to 2.2.4 of the Operations Plan and Methane Gas Monitoring Program for the landfill as contained in the Edgecombe County Transition Plan.

2.3 TRAFFIC PLAN

Traffic to and from the landfill shall be in accordance with the traffic plan shown on Sheet 3 of the plans.

2.4 TRAINING OF FACILITY PERSONNEL

Landfill operations personnel should be adequately trained to handle the operation and maintenance of the facility. Some of the critical tasks include:

- Accurate records of waste loading (quantity and type);
- Inspection and loading of waste material and prevention of windblown waste;
- Maintenance of surface water and erosion control structures;
- Identification of hazardous and liquid wastes; and
- Control of accidental fires.
- Daily cleanup of facilities to prevent nuisance conditions.

The Operations Manager should have a general understanding of all the tasks required for site operations and maintenance. The Operations Manager should have individuals properly trained for the specific tasks they are assigned. Training programs are offered by the State or by organizations like SWANA.

SOLID WASTE PERMIT

COUNTY OF EDGECOMBE

is hereby issued a PERMIT TO OPERATE a

TRANSFER FACILITY

located off of S.R. 1601, across from the Edgecombe County Landfill, Tarboro, Edgecombe County, North Carolina in accordance with Article 9, Chapter 130A of the General Statutes of North Carolina and all rules promulgated thereunder and subject to the conditions set forth in this permit. The facility is located and described by the construction plan submitted and the permit application narrative.

James C Coffey

James C. Coffey, Supervisor
Permitting Branch
Solid Waste Section

PERMIT NUMBER: 33-02T
DATE ISSUED: JUNE 9, 1998
FACILITY NAME: EDGECOMBE COUNTY TRANSFER FACILITY

CONDITIONS OF PERMIT

OPERATION:

1. This facility is permitted to receive solid waste as defined in 15A NCAC 13B .0101 (36), except that hazardous and liquid wastes are prohibited from acceptance at this facility.

2. This facility may receive solid waste that is generated within the service area described in Appendix I of this document and shall dispose of said solid waste at the East Carolina Landfill (Permit #08-03) located on N.C.S.R 1225, Bertie County, North Carolina or Sampson County Disposal, Inc.(Permit #82-01) located on Highway 24, in Roseboro, Sampson County, North Carolina.

3. This permit shall be reviewed every five (5) years, on or before 9 June 2003. Modifications shall be in accordance with the Rules in effect at the time of review.

4. This permit is for operation of the transfer facility in accordance with the approved plans and the approved Operational Plan prepared by the Wooten Company revised June 1998. Any revisions or modifications to these plans shall be approved by the North Carolina Solid Waste Section.

5. Operation of the facility shall occur in accordance with 15A NCAC 13B .0402, "Operational Requirements for Transfer Facilities", the approved operations plan prepared by the Wooten Company and these additional requirements:
   a. The owner or operator of a municipal solid waste management facility shall not knowingly dispose of any type or form of municipal solid waste that is generated within the boundaries of a unit of local government that by ordinance:
      1. Prohibits generators or collectors of municipal solid waste from disposing of that type or form of municipal solid waste.
      2. Requires generators or collectors of municipal solid waste to recycle that type or form municipal solid waste.
   b. On or before 1 December(or at an earlier date as requested by the Division), the owner or operator shall report to the NC Solid Waste Section, for the previous year beginning 1 July and ending 30 June, the amount by weight of the solid waste that was received at the facility and disposed of in a landfill, incinerated, or converted to fuel. To the maximum extent practicable, such reports shall indicate by weight the COUNTY of origin of all solid waste. The owner or operator shall transmit a copy of the report to the county in which the facility is located and to each county in which waste originated.

PERMIT NUMBER: **33-02T**
DATE ISSUED: **JUNE 9, 1998**
FACILITY NAME: **EDGECOMBE COUNTY TRANSFER FACILITY**

CONDITIONS OF PERMIT

OPERATIONS:

c. Waste shall not be stored on the "tipping floor" after operating hours. Waste can be stored in transfer trailers, at the facility with covers in place, after operating hours, but no longer than 48 hours.

d. The "tipping floor" and "transfer trailer loading area" shall be maintained in a sanitary, clean condition after operating hours in accordance with the approved Operational Plan prepared by the Wooten Company, revised June 1998.

Subject: Approval for Pump and Haul
County of Edgecombe
Solid Waste Transfer Station
Edgecombe County

Dear Mr. Durham:

In accordance with your completed request received on June 3, 1998, by the Division of Water Quality's Raleigh Regional Office, we hereby approve the pumping and hauling of the industrial wastewater (washwater) from the county's solid waste transfer facility. This pumping and hauling shall be performed in accordance with the description, terms, and conditions specified in this approval document. If any parts, requirements, or limitations contained in this approval are unacceptable, please provide a written response to Mr. Randy Jones, of my staff, within thirty days after receipt of this approval, describing your concerns.

If you need additional information concerning this matter, please contact Mr. Randy Jones of this Office at 919/571-4700.

Sincerely,

Kenneth Schuster, P. E.
Regional Supervisor

AN EQUAL OPPORTUNITY / AFFIRMATIVE ACTION EMPLOYER - 50% RECYCLED/10% POST-CONSUMER PAPER

PERMISSION IS HEREBY GRANTED TO

County of Edgecombe
Edgecombe County

FOR THE

operation of a 5000 gallon per month wastewater pump and haul activity which shall consist of the pumping and hauling of industrial wastewater (washwater) from the cleaning of the tipping floor/facilities at the county solid waste transfer facility; industrial wastewater (washwater) will flow by gravity through a floor drain to a 1000 gallon grease trap, then into a 5000 gallon holding tank with audible and visual high water alarm, from which the pumping will occur and will be hauled to the Town of Tarboro's WWTF for final treatment and disposal, pursuant to the completed request received on June 3, 1998.

This approval shall be subject to the following specified conditions and limitations:

1. This approval shall become voidable unless the subject pump and haul activities are carried out in a manner which has been approved by this Division.

2. This approval is effective only with respect to the nature and volume of wastes described in the submittal information and other supporting data.

3. The facilities shall be properly maintained and operated at all times.

4. This approval is not transferable. In the event there is a desire for the facilities to change ownership, a formal request must be submitted to the Division of Water Quality.

5. No type of wastewater other than the washwater from the cleaning of the facility tipping floor/facilities shall be included in these pump and haul activities.

6. This approval shall be voided unless the agreement between the County of Edgecombe, the Town of Tarboro, and Tarboro Septic Tank Cleaning Service for the transport and ultimate disposal of the wastewater is in full force and effect.

7. In the event that the facilities fail to perform satisfactorily, including the creation of nuisance conditions, the County of Edgecombe shall cease operation of all pump and haul activities and take such immediate corrective action as may be required by this Division.

8. The wastewater collected by this system shall be properly treated and disposed in the Town of Tarboro's WWTF in accordance with Pretreatment Permit No. 0015.

9. The County of Edgecombe is liable for any damages caused by a spill or failure of the pump and haul operations.

10. Adequate inspection, maintenance, and cleaning shall be provided by the County of Edgecombe to insure proper operation of the subject facilities.

11. The County of Edgecombe or its designee shall inspect the pump and haul collection facilities to prevent malfunctions and deterioration, operator errors, and discharges which may cause or lead to the release of wastes to the environment, a threat to human health, or a nuisance.

12. The County of Edgecombe shall maintain an inspection log or summary including at least the date and time of inspection, observations made, and any maintenance, repairs, or corrective actions taken. This log of inspections shall be maintained for as long as the pump and haul activities are being conducted and shall be made available upon request to the Division of Water Quality.

13. Any duly authorized officer, employee, or representative of the Division of Water Quality may, upon presentation of credentials, enter and inspect any property, premises or place on or related to the pump and haul collection facilities at any reasonable time for the purpose of determining compliance with the Division's approval; may inspect or copy any records that must be maintained under the terms and conditions of this approval; and may obtain samples.

14. An accurate record of the monthly pump and haul activities must be maintained by the County of Edgecombe indicating:

a) date wastewater is removed from the facility,
b) name of facility from which wastewater is removed,
c) name of facility receiving wastewater,
d) volume of wastewater removed, and
e) brief explanation why pump and haul option was used.

These records shall be submitted monthly to the Raleigh Regional Office on or before the fifteenth (15th) day of the following month. For those months in which no pump and haul activities occurred, submit a record which so indicates.

15. Failure to abide by the conditions and limitations of this approval may subject the County of Edgecombe to appropriate enforcement actions available to the Division of Water Quality.

16. The granting of this approval does not preclude the County of Edgecombe from complying with any and all statutes, rules, regulations, or ordinances which may be imposed by other government agencies (local, state, and federal) which have jurisdiction.

17. **Noncompliance Notification:**

The County of Edgecombe shall report by telephone to the Raleigh Regional Office, telephone no. 919/571-4700, as soon as possible, but in no case more than twenty-four (24) hours or on the next working day following the occurrence or first knowledge of the occurrence of any of the following:

a. Any process unit failure, due to known or unknown reasons, that render the facility incapable of adequate wastewater treatment such as mechanical or electrical failures of pumps, aerators, compressors, etc.

b. Any failure of a pumping station, sewer line, etc., resulting in a by-pass directly to receiving waters without treatment of all or any portion of the influent to such station or facility.

Persons reporting such occurrences by telephone shall also file a written report in letter form within fifteen (15) days following first knowledge of the occurrence. This report must outline the actions taken or proposed to be taken to ensure that the problem does not recur.

18. When these pump and haul activities are no longer required, please send written notification to the Raleigh Regional Water Quality Supervisor.

19. Upon completion of construction and prior to operation of the pump and haul activity, the attached certification must be received from a North Carolina Professional Engineer certifying that the project has been installed in accordance with this approval document, the submitted plans/specifications, and other supporting materials. This certification should be submitted to Mr. Randy Jones in the Raleigh Regional Office at the letterhead address specified on the cover letter.

20. It is the responsibility of the County of Edgecombe to ensure that the grease and holding tanks are inspected and pumped as often as is necessary to ensure that overflows and nuisance odors do not occur.

Approval Granted on this the 3rd day of June, 1998.

AUDIT PARTICIPANTS:
Ben Barnes, Solid Waste Section, Danny Bagley Edgecombe Co. Solid Waste

STATUS OF PERMIT:
Expired, Permit issued June 9, 1998 due for review on or before June 9, 2003

PURPOSE OF AUDIT:
To conduct a comprehensive audit of a MSW Transfer Facility

NOTICE OF VIOLATION(S) (citation and explanation):
15A NCAC 13B .0201(a) which states that "no person shall establish, or allow to be established, on his land a solid waste disposal facility, or otherwise treat, store, or dispose of solid waste unless a permit for this facility has been obtained by the Division." Edgecombe County is in violation of this rule in that the permit for this facility expired on June 9, 2003 and documentation for renewal of the permit has not been submitted to the Division at this time. *Therefore Edgecombe Co. must by January 5, 2004 submit to the Division all documents necessary to secure a new permit.*

You are hereby advised that, pursuant to N.C.G.S. 130A-22, an administrative penalty of up to $5,000 per day may be assessed for each violation of the Solid Waste Statute or Regulations. If the violation(s) noted here continue, you may be subject to enforcement actions including penalties, injunction from operation of a solid waste management facility or a solid waste collection service and any such further relief as may be necessary to achieve compliance with the North Carolina Solid Waste Management Act and Rules.

STATUS OF PAST NOTED VIOLATIONS (List all noted last audit):
NONE

OTHER COMMENTS /SUGGESTIONS:

1. Facility has had problems with waste food product from Sarah Lee clogging the storm water drain and the sedimentation basin located at the base of the ramp. Need to make sure that all of this waste is dumped on the tipping floor.
2. County has constructed a shelter to store agricultural pesticide containers for recycling.

Please contact me if you have any questions or concerns regarding this audit report.

Ben Barnes (signature) Phone 919 571 4700.

RESOLUTION IN SUPPORT OF THE EDGECOMBE COUNTY MUNICIPAL SOLID WASTE TRANSFER STATION DEFINING NEW SERVICE AREAS.

WHEREAS, the existing Edgecombe County Municipal Solid Waste Transfer Station – Permit No. 33-02T, is presently permitted by the N.C. Solid Waste Section for a service that includes exclusively Edgecombe County; and

WHEREAS, the Board of Commissioners of the County of Edgecombe desires to amend the existing service area of the Edgecombe County Municipal Solid Waste Transfer Station to include the additional service area of Halifax and Nash Counties.

NOW THEREFORE BE IT RESOLVED, that the Board of Commissioners of the County of Edgecombe does hereby amend the service area of the Edgecombe County Municipal Solid Waste Transfer Station to include Halifax and Nash counties of North Carolina.

ATTEST:

Charles A. Hamell
Chairman, Board of Commissioners

Carolyn S. Hedgepeth
Clerk to the Board

Mr. Anderson inquired when Rocky Mount named their road name to Coolspring and suggested we ask Rocky Mount to clear up the confusion.

Rev. Hines asked Mr. Bass if any residents were contacted regarding the name changes. Mr. Bass responded that all private lanes had received notice and asked to respond; if no response was received it was then forwarded to the Planning Board for consideration.

There being no further comments, the public hearing was adjourned.

Mr. Wiggins motioned to rename the road and lane names as presented with the exception of Coolspring Road, seconded by Mr. Cherry and unanimously approved.

Mr. Cherry motioned to recess the regular Board of Commissioners meeting and convene as Board of Equalization and Review, seconded by Mr. Anderson and unanimously approved.

Ms. Teresa Hogshire, Assistant Clerk of Court administered the Oath.

Mr. Gene Rountree, Tax Administrator, presented a brief overview of the responsibilities of the Board of Equalization and Review and introduced the scheduled appointments. He advised that Mr. Dennis Speck declined to speak and asked that Mr. Rountree present his complaint to the Board. Mr. Rountree stated the Mr. Speck considered the tax value of $12,350 on his property too high and believed it should be closer to fair market value of $8,000.

Mr. Dennis and Ms. Louanne Womble, property owners of lots in the Leggett Road Subdivision stated that they were unable to sell their lots because they were located in the 100 year flood plain and the tax value of $6,500 to $8,000 was too high. Ms. Womble stated that she dropped the price on these lots to $2,000 and still could not sell them. She also stated that she has farmland on Cox Road with a tax value of $43,859 and the land is not able to perk. She considered that to be too high also and asked for Board consideration of that property as well.

Mr. Rountree advised the Board that he would provide recommendations at the June meeting.

Mr. Felton motioned to recess the Board of Equalization and Review meeting until June 7, 1999 and reconvene regular Board of Commissioners; meeting, seconded by Mr. Cherry and unanimously approved.

Mr. Harrell called for public petitions. There were none.

Mr. Durham advised the Board that at the last meeting they allowed Scotland Neck and Hobgood to use the Edgecombe County Transfer Station. He stated that State regulations required a resolution amending the service area in order to allow the County to begin receiving waste from outside the service area. Mr. Durham recommended approving a resolution amending the service area to include Edgecombe, Nash and Halifax counties.

Mr. Anderson motioned to approve the resolution in support of the Edgecombe County Municipal Solid Waste Transfer Station defining a new service area to include the Counties of Edgecombe, Nash and Halifax. Mr. Cherry seconded the motion, which was unanimously approved.

(INSERT RESOLUTION)

Mr. Durham advised that the Department of Transportation annually submits the Secondary Road Paving Construction program for Board consideration and approval. He stated that Mr. Andy Mills from the Department of Transportation was present to provide an overview.
