RE: A-1 Sandrock CDLF South Facility Mine
Guilford County
Cape Fear River Basin

Dear Mr. Petty:

The application for a mining permit for the above referenced mine site has been found to meet the requirements of G.S. 74-51 of The Mining Act of 1971. As we have received the required security to cover this application, I am enclosing the mining permit.

The conditions of Mining Permit No. 41-22 were based primarily upon information supplied in the application with conditions added as necessary to insure compliance with The Mining Act of 1971. This permit expires on November 25, 2012. G.S. 74-65 states that the issuance of a mining permit does not supersede or otherwise affect or prevent the enforcement of any zoning regulation or ordinance duly adopted by an incorporated city or county or by any agency or department of the State of North Carolina.

As a reminder, your permitted acreage at this site is 70.16 acres and the amount of land you are approved to disturb is 38.56 acres.

Please review the permit and notify this office at (919) 733-4574 of any objection or questions concerning the terms of the permit.

Sincerely,

Tracy E. Davis, P.E., C.P.M.
State Mining Specialist
Land Quality Section
