RE: Waste Management of the Carolinas, Inc.

Chatham County Transfer Station

Permit # 19-03T Renewal Request

Dear Mr. Coffey:

Waste Management of the Carolinas, Inc.(WMC) has a Solid Waste Permit (No. 19-03T) to operate a transfer station off U.S. Highway 64, Siler City, North Carolina. This is a request for a permit renewal. We have previously submitted letters to request a revised service area and an amended service area, and have not received a response. Our solid waste inspector "Flint" Worrell has requested we submit a third letter requesting a permit renewal including these requested changes as described below.

Waste Management would like to amend the disposal location for this station to include Sampson County Landfill (Permit # 82-01) in Roseboro, NC, as the primary disposal facility, and the Uwharrie Environmental Landfill (Permit # 62-04) as the alternate disposal facility located in Troy, North Carolina.

In addition, WMC respectfully requests to amend the service area to add Johnston and Lee Counties to the currently approved service area for this facility.

If you have any questions please feel free to contact me at 864-439-8426.

Sincerely,

Mike Loyd
Division Engineer
