Huntersville, NC 28078

Subject: North Mecklenburg Construction and Demolition Landfill
Engineering Review of Application to Expand
Permit #60-13

Dear Mr. Griffin:

I am writing to acknowledge receipt of your response to my review letter of November 7, 1994, and to offer further comments intended to assist you in the permitting process. As you were notified in a letter dated today from Bobby Lutfy of the Solid Waste Section, there are still unresolved issues concerning the hydrogeologic aspects of your permit application. Until these issues (primarily the matter of establishing base grades which satisfy vertical separation requirements) are resolved, you should be aware that further revisions to the grading plan, construction plan, cross-sections, and earthwork calculations may be necessary.

We sincerely hope that the planned site visit and discussions will help clarify these issues, and will help us find a course of action which will satisfy all parties involved. For further discussion, please contact me at (910) 771-4600.
