Re: Permit to Operate for Brooks Compost Facility  
Large Type 3 Solid Waste Compost Facility; Chatham County  
**Permit #1905-Compost-2015**  
**DIN 24812**

Dear Mr. Brooks:

Please find enclosed the signed Permit to Operate (DIN 24811) for the Brooks Compost Facility located outside of Goldston, NC. This permit issuance approves the continued operation of the facility under the terms and conditions of the permit. In general, the facility permit does not reiterate permit conditions included in the Solid Waste Management Rules, 15A NCAC 13B, nor does it restate specific conditions that are included within the approved plans, such as site specific operations. Please review the conditions of the permit carefully.

A pdf copy of the stamped approved Operations Manual (DIN 24736) dated January 21, 2015 will be sent to you separately. As required, please keep a copy of the current permit, updated Operations Plan, and other required documentation on site at all times. These are also available for download from our website:

<https://edm.nc.gov/DENR-Portal/>. To access documents for this permit, type in “1905-Compost” in the ID value box under ‘Property criteria’ tab and click on ‘Search’. Right click on the target document to view or download.

If you have any questions regarding the permit or its conditions, please contact me by phone at (919) 707-8258 or by email at [perry.sugg@ncdenr.gov](mailto:perry.sugg@ncdenr.gov). The Solid Waste Management Specialist for the facility is Liz Patterson. She can be reached at (919) 707-8286.

With Best Regards,

Perry Sugg, PG  
Permitting Hydrogeologist
