Murphy, North Carolina 28906

RE: Revised Closure Schedule for Cherokee County MSW Landfill  
Permit No. 20-01

Dear Mr. Wiggins:

The Solid Waste Section has reviewed your request, submitted on your behalf by Municipal Engineering Services Company on 19 August 1998, for a revised extension of time to finish closing the above referenced landfill. The Solid Waste Section (the Section) approves of the revised proposed schedule outlined in the letter and approves the proposed completion date of 30 November 1998. If, for reasons beyond Cherokee County's control, items addressed in the 19 August 1998 letter cannot be completed in the proposed time frame Cherokee County shall notify the Section and provide an explanation for the delay along with a revised time line. Meanwhile, Cherokee County should maintain the existing cover and repair any erosion or damage done to the interim cover and portions of the final cap completed thus far. If necessary, temporary seeding or mulch shall be applied to landfill areas to minimize on-site erosion.

As a reminder, according to Waste Management Rules 15A NCAC 13B section .1627(c)(7), "following closure of each MSWLF unit, the owner or operator shall notify the Division that a certification, signed by the project engineer verifying that closure has been completed in accordance with the closure plan, has been placed in the operating record." This notification can accompany the CQA document submitted to the Section, upon completion of the cell closure, with the stated date that the notice was placed in the operating record.

If you have any questions or comments concerning this letter, please contact this office at (919) 733-0692.

Sincerely,

  
James C. Coffey, Supervisor  
Permitting Branch  
Solid Waste Section
