Subject: CHR Complete - Change in Ownership of permit 2102-COMPOST (Bio-Comp, Inc. to Good Earth Horticulture, Inc.)

Good morning Tony,

We have performed a compliance history review for the Change in Ownership of Bio-Comp, Inc. to Good Earth Horticulture, Inc., permit 2102-COMPOST. The results from this review do not indicate that the permit should be declined at this time. The permit fee has been paid.

Owner/Operator: GOOD EARTH HORTICULTURE, INC.

The new owners have been operating without a valid permit since roughly March. The last time the facility was inspected, there appeared to be no violations.

The stakeholders of Good Earth Horticulture, Inc. also own Good Earth Organics, Corporation. The only way the two companies are linked are by stakeholders and not by finances. In 2011, ADEQ issued Good Earth Organics, Corporation a Compliance Order with Penalty which was resolved in 2013. Good Earth Organics was cited for not being able to produce paperwork while only temporary workers were onsite, as well as improper measuring devices installed at the outfall of a pond. The measuring device didn't have the required measuring marks.

Please let me know if you have any questions or concerns.

Regards,

Sarah M. Rice
