Re: Application Determination of Completeness and Review
Cherry Point LCID
Permit No.25B-LCID-, Craven County, Document ID No. 24745

Dear Mr. Arnett:

The Division of Waste Management, Solid Waste Section, has received your permit amendment request for the Cherry Point LCID (Permit No. 25B). This letter is to notify you that the application is considered complete within the context of North Carolina General Statutes (NCGS) §130A-295.8(e).

A determination of completeness means that the application includes all required components but does not mean that the required components provide all of the information that is required for the Section to make a decision on the application.

An initial technical review of the application was also conducted. Please address the following comments/questions and modify the application where appropriate.

1. The application should include cross-sections of development of the landfill in accordance with 15A NCAC 13B .0565(3) (o). The cross-sections provided are dated from 1997. These drawings need to be updated to reflect current conditions and future operations. Please provide larger drawings because it is difficult to review letter-size drawings.
2. If the final grade has been reached or you are no longer using the facility as a landfill, you may need to address the closure requirements for an LCID landfill. Cover required for closure is listed under 15A NCAC 13B .0566. The operations conducted could be approved under a treatment and processing permit if landfill closure is appropriate.

Mr. Nathan Arnett
Permit Amendment Application Review – DIN 24745

Page 2 of 2

Under NCGS §150B-3, when an applicant makes a timely and sufficient application for issuance or renewal of a permit, the existing permit does not expire until a final decision on the application is made. Therefore, until the final decision is made, you are authorized to continue operation of the Cherry Point LCID in accordance with your most recent Solid Waste Permit and the Solid Waste Management Rules (15A NCAC 13B).

If you have any questions regarding this matter, please contact me at (919) 707-8257 or by email at pat.backus@ncdenr.gov.

Sincerely,

Patricia Backus, P.E., Environmental Engineer
Division of Waste Management, NCDENR

cc: Ed Mussler, P.E., Permitting Branch Head
Dennis Shackelford, Eastern District Supervisor
Ray Williams, Environmental Senior Specialist
