April 15, 2014

Mr. Robert Howard
Cumberland County Office of Solid Waste Management
698 Ann Street
Fayetteville, NC 28301

Subject: General Permit No. NCG240000
Wilkes Road Yard Waste Treatment and
Processing Facility
COC NCG240014
Cumberland County

Dear Mr. Howard:

In accordance with your application for an NPDES stormwater discharge permit received on March 6, 2014, we are forwarding herewith the subject certificate of coverage to discharge under the subject state – NPDES general permit. This permit is issued pursuant to the requirements of North Carolina General Statute 143-215.1 and the Memorandum of Agreement between North Carolina and the US Environmental Protection Agency dated October 15, 2007 (or as subsequently amended).

Based on your representation in the permit application that the Wilkes Road Yard Waste Treatment and Processing Facility is a Type 1 compost facility, the provisions of the recently enacted Session Law 2012-200 pertain to the facility. Consistent with the provisions of SL 2012-200, DWQ will permit all the composting discharges from your Type 1 facility under the stormwater discharge provisions of the permit, and the General Permit requirements related to process wastewater discharges do not apply to the composting discharges from your Type 1 facility.

This permit does not affect the legal requirements to obtain other permits which may be required by the Division of Energy Mineral & Land Resources or permits required by any other federal or local governmental permit that may be required.

Please note that this certificate of coverage is not transferable except upon the specific action of the Division of Energy Mineral & Land Resources.

If you have any questions concerning this permit, please contact Ken Pickle at telephone number (919) 807-6376, or at ken.pickle@ncdenr.gov.

Sincerely,

Ken Pickle

STATE OF NORTH CAROLINA
DEPARTMENT OF ENVIRONMENT AND NATURAL RESOURCES
DIVISION OF ENERGY MINERAL & LAND RESOURCES

CERTIFICATE OF COVERAGE No. NCG240014: authorizing SURFACE WATER DISCHARGES under the National Pollutant Discharge Elimination System (NPDES) program.

In compliance with the provision of North Carolina General Statute 143-215.1 as amended by North Carolina Session Law 2012-200, other lawful standards and regulations promulgated and adopted by the North Carolina Environmental Management Commission, and the Federal Water Pollution Control Act, as amended,

Cumberland County Office of Solid Waste Management

is hereby authorized to discharge from a Type 1 composting facility (as defined in 15A NCAC 13B .1400) located at

Wilkes Road Yard Waste Treatment and Processing Facility
771 Wilkes Road
Fayetteville
Cumberland County

to receiving waters designated as Pearces Mill Creek, a class C, water in the Cape Fear River Basin.

Pursuant to the provisions of Session Law 2012-200, a Type 1 composting facility is not required to have a NPDES permit for discharge of process wastewater. Notwithstanding any contrary provisions in the General Permit, all discharges of stormwater, including stormwater which comes into direct contact with or results from the production or use of any raw material, intermediate product, finished product, byproduct, or waste product are authorized which comply with the stormwater pollution management requirements, monitoring requirements, reporting requirements, and other conditions set forth in Part I, Part II A - D, Part IV, Part V, Part VI, and Part VII of General Permit No. NCG240000. In accordance with the provisions of Session Law 2012-200, the process wastewater management requirements do not apply to the composting discharges from this Type 1 facility, and all composting operation discharges are authorized when the facility complies only with the stormwater provisions of the General Permit. To the extent any provisions may be read to impose the process wastewater standards in the General Permit to discharges from the permittee's facility, the provisions are suspended and do not apply.

This Certificate of Coverage is an enforceable part of General Permit NCG240000, and shall become effective for the permittee on April 15, 2014.

This Certificate of Coverage shall remain in effect for the duration of the General Permit.

Signed this day, April 15, 2014.

for Tracy E. Davis, P.E., Director
Division of Water Quality
By the Authority of the Environmental Management Commission
