RE: Permit Application
Wallace Farm Inc.
Davie County Compost Facility
Large, Type 1
Davie County, North Carolina

Dear Ms. Wilson:

Based on the email you provided on October 3, 2014, we have made the following revisions to the application for the Type 1 operation, as follows:

1. *Wood ash as a feedstock* - Wood ash has been eliminated as a feedstock.
2. *Land deed* – Included with this submittal.
3. *Process Flow Diagram* – Formatting of this figure has been corrected to properly display text.
4. *Pathogen reduction following water addition.* – See page 6 of the Operation & Maintenance Manual.
5. *Distance between windrows.* – See page 13 of the Permit Application Report.
6. *Maximum height of windrows.* – See page 13 of the Permit Application Report.
7. *Section 5.5 Fires: Contact information.* See Section 5.5 of the Operation & Maintenance Manual.
8. *Drawings.* Items a, b, c, and d have been addressed on the revised drawings included in this submittal.

Regarding other items of note: the description of the curing/storage pile has been revised in Section 2.8; materials not proposed for the Type 1 facility have been removed from the appendices; and analytical testing has been deleted from Chapter 3.

If you have any questions or need additional information, please call.

Sincerely,

GARRETT & MOORE, INC.

Bernie Garrett, P.E.
