**Subject:** Permit 3212-HHW-2014 City of Durham HHW

Ed,

Construction of the new City of Durham HHW was recently completed. The Solid Waste Section was contacted in accordance with Attachment 2, condition 2 of the Permit to Construct to inspect the facility.

John Patrone inspected the facility and reviewed the permit conditions with the Bruce Woody, the Solid Waste Disposal Manager for the City of Durham on August 26, 2014. John contacted me and indicated there were no issues during the inspections. He will prepare an inspection report to document the visit.

As also required by the Permit to Construct, copies of the as-built drawings (DIN 21653) and engineer's certification letter (DIN 21652) have been submitted to the Section. DIN 21652 also includes the Certificate of Compliance for occupancy issued by the City and County of Durham.

This email is notification that that Attachment 2, condition 2 of the Permit to Construct has been met and also serves as authorization for the facility to operate under the Permit to Operate. The operator has been instructed to place a copy of this notification in their permanent record.

If there are any questions, please contact me.

Pat
