**Subject:** RE: Revised Financial Assurance for Capital Materials and Recycling

Hi James-

The NC Solid Waste Section has reviewed the revised Financial Assurance estimate submitted on your behalf by Stacey Smith of Smith + Gardner, Inc. and approves the proposed remedial response number of \$239,030 which is provided primarily to crush and screen unprocessed concrete debris into a recycled concrete aggregate material and to grind and process woody debris remaining on site. Sarah Rice will be contacting you to handle the revised financial assurance number with your bank.

On a separate matter, we are requesting information regarding your proposed mulch coloring operation as a water well has been verified as installed at the site for this purpose. The current approved operation plan for the Capital Materials T&P facility does not include the mulch coloring operation; therefore the NC Solid Waste Section requires additional information prior to authorizing this proposed operation.

If you have any questions or concerns, please call or email me at my contact information below.

**Subject:** Revised Financial Assurance for Capital Materials and Recycling

Christine,

Please find our revised financial assurance estimate for the Capital Materials and Recycling facility. We have attempted to similarly address the recent installation of the water well in this correspondence.

Please feel free to call me with any questions or concerns.

Thanks,

sas
