Subject: Permitting Activity Termination
Proposed Bear Creek Transfer Facility
Graham County, Permit # 3804-TRANSFER-2013, Document ID 23955

Mr. Cable:

The Division of Waste Management, Solid Waste Section (Section) has received your email communication regarding your intent not to continue with development of a transfer facility at the Bear Creek location (DIN 23954). The document was received in the Asheville Regional Office on March 11, 2015.

Based on your notification, the Section has terminated the new facility permitting activity for the proposed transfer facility at the Bear Creek location. As a result, this location may not be used for any solid waste activities for which a permit is required. Additionally, plans for developing a solid waste management facility at this location in the future will require submission and approval of another permit application and payment of the appropriate permitting activity fee.

If you should have any questions regarding this matter please contact me at (828) 296-4703, or by email at allen.gaither@ncdenr.gov.

Sincerely,

Allen Gaither
Environmental Engineer
