Subject: Permit to Construct Request, Division Response  
Permit No. 4204-CDLF-2013, Halifax County Landfill  
Halifax County, DIN 24028

Dear Mr. Griffin:

On March 13, 2015 the Division of Waste Management (Division), Solid Waste Section received your request, entitled;

*Halifax County C&D Landfill – Area 2 Phase 1 (Permit 4204-CDLF), Request for Extension of Time to Begin Construction.* Prepared for Halifax County. Prepared by Smith Gardner. March 2015. DIN 24027.

The request concerns extension of the Permit to Construct for Area 2 Phase 1 of the landfill facility.

The Division has determined that there is no allowance in the general statutes or the administrative code for the extension of the permit to construct, therefore an extension cannot be granted.

However, Halifax County (County) has by submittal of the request referenced above (DIN 24027), met the condition requirement for re-application of the permit to construct, prior to expiration. In order to avoid the possibility of multiple requests and fees, please notify the Division when the County is ready to begin construction on Area 2 Phase 1. Once notified the Division will invoice the County for a permit modification fee (\$1,500) and upon receipt of payment the Division will issue a modified permit with a revised issuance date, allowing for another 18 month period to begin substantial construction.

Should you have any questions regarding this matter you may contact me at (828) 296-4704 or at [larry.frost@ncdenr.gov](mailto:larry.frost@ncdenr.gov).

Sincerely,

Larry Frost, Engineering Project Manager  
Permitting Branch, Solid Waste Section  
Division of Waste Management, NCDENR
