Re: Issuance of Permit to Construct and Operate
Weeks Sandpit No. 2 LCID Landfill
Harnett County, North Carolina
Permit 43F-LCID-2010
DIN 24423

Dear Mr. Lees:

Enclosed is the Permit to Construct Cell 2 and Permit to Operate Cell 1 and 2 at the Weeks Sandpit No. 2 LCID Landfill in Harnett County (DIN 24422). Please read the Permit carefully, and in its entirety, as the format and conditions may have changed since it was last issued.

Also, please take note that one Permit condition must be met before disposal operations may commence in Cell 2: Condition 3.d. (Attachment 2, page 5 of 9) requires you arrange a site inspection and pre-operative meeting with Drew Hammonds, Environmental Senior Specialist. Mr. Hammonds may be contacted via andrew.hammonds@ncdenr.gov or 919-433-3350.

All documents with a Document ID Number (DIN) shown in Attachment 1, Part II: List of Documents for the Approved Plan are available from the Section Portal in Portable Document Format (PDF) using the following link: <https://edm.nc.gov/DENR-Portal/>. In order to view the documents, you may either put the Permit ID in the "ID" field or the individual Document ID numbers (DIN) in the "Description" field.

Issuance of the Permit concludes the amendment permitting activity in accordance with NCGS 130A-295.8(b)(2)(b). Please don't hesitate to contact me at 919-707-8253 or Drew Hammonds if you have questions about the permit conditions or questions arise during construction.

Sincerely,

Elizabeth S. Werner
Permitting Hydrogeologist
Solid Waste Section
