Subject: APPROVAL - FFLF LFG Well Construction (DIN 25086)

Dear Andy,

The Solid Waste Section (Section) has reviewed your well construction variance request (DIN 25085) for the landfill gas monitoring wells to be installed at the closed Francis Farm Landfill, 4403-MSWLF-1982, as part of the updated Landfill Gas (LFG) Monitoring Plan. The Section understands the subsurface constraints and the need for the variance. Therefore, the Section approves the well construction variance request. The Section looks forward to reviewing the LFG Monitoring Plan. Please don't hesitate to contact me with any future questions or concerns.

Sincerely,
Elizabeth Werner

Elizabeth S. Werner
