Subject: Shelton Property Earth Stockpile
Closed Francis Farm MSW Landfill
Haywood County, Permit #4403-MSWLF-1982, Document ID 22284

Mr. King:

The Division of Waste Management, Solid Waste Section (Section) has completed the review of the document titled *Francis Farm Landfill - Shelton Property Earth Stockpile* (DIN 22283). The document was submitted on your behalf by McGill Associates and was received in the Asheville Regional Office on November 13, 2014.

The submittal includes a revised Site Plan detailing a proposed earth stockpile area on the former Shelton property (PIN 8626-21-7591) adjacent to, but outside of, the landfill facility boundary. It is the understanding of the Section the soil/earth is coming from roadway excavation work nearby and will access the proposed stockpile area using the existing Francis Farm access road. Additionally, the stockpiled soil/earth may be used for future landfill or land improvement projects. The stockpiling of soil is not regulated as solid waste, and is outside of the facility boundary, so the activity may proceed, as described, with no further input from the Section.

If you should have any questions regarding this matter please contact me at (828) 296-4703, or by email at allen.gaither@ncdenr.gov.

Sincerely,

Allen Gaither
Environmental Engineer
