Re: PTC Phase 2 Status
Permit No. 54-09

Fac/Perm/Co ID #	Date	Doc ID#
54-09	04/07/14	DIN 20847

Dear Mr. Chao:

I am writing in reference to our Permit to Construct (PTC) Phase 2 and the Permit to Operate (PTO) Phase 1 of our Municipal Solid Waste Landfill (MSWLF), Permit No. 54-09. As you are aware, Lenoir County is presently transferring our municipal solid waste to a regional landfill. We still have some space in Phase 1 of our MSWLF; but we are not disposing any waste in it at this time. However, due to economic conditions, the County is delaying the construction of Phase 2 until it is economically more favorable for us to construct Phase 2.

The County understands that we must renew the Permit to Operate (PTO) for Phase 1 on or before February 18, 2015 and this request has to be submitted six months (August 17, 2014) prior to the expiration date. At this time, we would like to request a modification for the PTO for Phase 1 for an additional five years. There have been no changes to the operation plans since they were approved.

Also, Phase 1 has been temporarily covered with one foot of soil and stabilized with a vegetative cover. We are monitoring it and any areas where settlement has occurred, we are filling those areas with soil and re-vegetating them.

We also understand that we will be charged a permit modification fee for this request. We appreciate your consideration and patience on this matter. If you have any questions or concerns, please do not hesitate to call me.

Sincerely,

James T. Miller
Director of Solid Waste

cc: Michael W. Jarman, County Manager
