RE: Amendment to Operational Hours
BFI- Lake Norman Landfill, Inc.
Permit ID# 55-04

Dear Mr. Wagner:

Lake Norman C&D Landfill (landfill) is submitting this letter to inform you of an amendment to our permitted operational hours on a temporary basis. The landfill has been requested to extend our normal operating hours from 7am to 4pm to 7am to 12am the next morning. The request will help accommodate a current customer who has acquired a project in Charlotte, NC. Due to the complexity of this project, the contractor isn't able to start hauling of the material until 5pm each day. Lake Norman Landfill expects the project to last until the end of January. The landfill will have a certified MOLO operator on site during this event. The site anticipates pushing the loads and then compacting all loads the next day once the normal crew is on site.

Please let me know if you have any questions or comments. I can be reached at 704-262-6019 or mgurley@republicservices.com.

Sincerely,

A handwritten signature in black ink that reads "Mike Gurley".

Mike Gurley
