MECKLENBURG COUNTY
Department of Environmental Protection

August 10, 1988

Mr. Ken Hoffman, Director
Mecklenburg County Engineering Department
700 North Tryon Street
Charlotte, North Carolina 28202

RE: Compliance with Closure Procedures
For Holbrooks Road Sanitary Landfill
Permit #60-02

Dear Mr. Hoffman:

Pursuant to the North Carolina Solid Waste Management Rules, 10NCAC10G, Section .0510 Closure Conditions an inspection was performed on the Holbrooks Road Sanitary Landfill, Phase 2, the east most section of the sanitary landfill, on July 22, 1988. By conducting soil borings it was determined that the final cover requirements (at least 2 feet of suitable, compacted earth cover over the fill area) was in compliance. Vegetative cover was also found to be sufficient during the inspection as no sparsely vegetated areas existed.

After closure, as the landfill owner or operator, Mecklenburg County is responsible for future site maintenance and for any water quality monitoring requirements at the closed solid waste site.

By this letter your solid waste disposal permit # 60-02 for the Holbrooks Road Sanitary Landfill is terminated. Any future disposal operation (excavation or disposal) at this sanitary landfill site will require a new solid waste disposal permit.

Mr. Ken Hoffman, Director
