Re: Permit to Operate for Hensons' Inc.
LCID Treatment & Processing facility; Mecklenburg County
Permit #6015-TP-2015
DIN 24329

Dear Mr. Fincher:

Please find enclosed the Permit to Operate (DIN 23945) for the Hensons' Inc. facility located in Pineville, NC. This permit issuance approves the continued operation of the facility under the terms and conditions of the permit. In general, the facility permit does not reiterate permit conditions included in the Solid Waste Management Rules, 15A NCAC 13B, nor does it restate specific conditions that are included within the approved plans, such as site specific operations. Please review the conditions of the permit carefully.

The stamped approved Operations Plan (updated January 2015) is also enclosed for your files. As required, please keep a copy of the current permit, updated Operations Plan, and other required documentation on site at all times. These are also available for download from our website: <https://edm.nc.gov/DENR-Portal/>. To access documents for this permit, type in "6015TP" in the ID value box under 'Property criteria' tab and click on 'Search'. To view or download a document, 'right click' anywhere on the line of the target document.

If you have any questions regarding the permit or its conditions, please contact me by phone at (919) 707-8258 or by email at perry.sugg@ncdenr.gov. The Solid Waste Management Specialist for the facility is Charles Dial. He can be reached at (704) 432-1753.

With Best Regards,

Perry Sugg, PG
Permitting Hydrogeologist
