**RE: Notification of Groundwater Exceedences
Wilkes County Roaring River Landfill, Permit No. 97-04
Wilkes County, North Carolina
JOYCE Project No. 356.1501.12, Task No. 02**

Dear Ervin:

On behalf of Wilkes County, Joyce Engineering (JOYCE) is submitting this notification of Groundwater Protection Standard (GPS) exceedences at the Wilkes County Roaring River Landfill, Permit No. 97-04, in accordance with Title 15A, Chapter 13, Subchapter 13B, Section .1634 (g) of the North Carolina Solid Waste Management Regulations. The second semiannual sampling event at the Roaring River Landfill took place on October 13-14, 2014. A resampling event was completed on November 18-19, 2014. Samples were sent to Pace Analytical Services, Inc. of Hunertsville, NC.

Barium was detected above its GPS in the October 2014 sample and November 2014 verification sample in MW-6. In response to the confirmed exceedences of barium in monitoring well MW-6, the County will proceed with an Alternate Source Demonstration (ASD) and submit it to the Division within 90 days, as allowed by the Title 15A, Chapter 13, Subchapter 13B, Section .1633 (c) (3) of the North Carolina Division Solid Waste Management Regulations. If you have any questions or concerns regarding this notification please contact me or Van Burbach (336) 323-0092.

Sincerely,
JOYCE ENGINEERING
