Ms. Kimberlee Hutchinson, Environmental Services  
Duke Energy Carolinas, LLC  
3195 Pine Hall Road  
Belews Creek, North Carolina 27009

Subject: Evaluation of Possible Slope Nonconformity  
Permit No. CCB0072, Marshall Steam Station, Structural Fill  
Catawba County, DIN 24506

Dear Ms. Hutchinson:

On June 10, 2015 the Division of Waste Management, Solid Waste Section (Section) received Duke Energy's recommendations for evaluation of the structural fill associated with the industrial landfill permit no. 1812-INDUS-2008 , entitled;

*Marshall Steam Station Industrial Landfill Structural Fill, Structural Fill Permit No. CCB0072, Marshall Steam Station, Terrell, North Carolina. Prepared by AECOM. Prepared for Duke Energy. June 2015. DIN 24505.*

The Section has reviewed the recommendations and approves of the process presented as appropriate for determining the cause of the issues observed at the structural fill. Duke Energy should informed the Section of the results of the evaluation, including cause(s) and solution(s) for the observed nonconformity.

Should you have any questions regarding this matter contact me at (828) 296-4704 or [larry.frost@ncdenr.gov](mailto:larry.frost@ncdenr.gov).

Sincerely,

Larry Frost, Engineering Project Manager  
Permitting Branch, Solid Waste Section  
Division of Waste Management, NCDENR
