Active (Notification dated 8/11/1995)

PURPOSE OF SITE VISIT:

Comprehensive site inspection

STATUS OF PAST NOTED VIOLATIONS:

None

OBSERVED VIOLATIONS

None

The item(s) listed above were observed by Section staff and require action on behalf of the facility in order to come into or maintain compliance with the Statutes, Rules, and/or other regulatory requirements applicable to this facility. Be advised that pursuant to N.C.G.S. 130A-22, an administrative penalty of up to \$15,000 per day may be assessed for each violation of the Solid Waste Laws, Regulations, Conditions of a Permit, or Order under Article 9 of Chapter 130A of the N.C. General Statutes. Further, the facility and/or all responsible parties may also be subject to enforcement actions including penalties, injunction from operation of a solid waste management facility or a solid waste collection service and any such further relief as may be necessary to achieve compliance with the North Carolina Solid Waste Management Act and Rules.

ADDITIONAL COMMENTS

1. On site to conduct comprehensive site inspection with Mr. Gibson, Town of Canton Public Works. Site access was controlled and roads were in good condition. The Notified LCID is located at the #4404 Closed Town of Canton MSWLF.
2. Review of the facility parcel was conducted at the Town of Canton manager's office with Mr. Seth Hendler-Voss prior to the site inspection. While current GIS (Haywood County GIS) records indicate multiple parcel lines, these are actually tract lines [the parcels are PIN 8666-48-2111, 8666-47-2840, and 8666-47-0515] associated with one deed. It is the responsibility of the Town to ensure that the 100' buffer from waste disposal areas to property lines is maintained and that the recordation of the original Notification is continuously associated or recorded on the correct property. In addition, please ensure that the disposal area does not exceed the 2-acre limit.

Haywood Co. GIS

3. No unacceptable materials were noted on site. The facility maintains adequate soil cover (required monthly or when the active disposal area reaches one acre in size, whichever occurs first) and erosion control measures were in place (berm).

Please ensure that the Town continues to keep a small active working area, achieves adequate cover, and provides proper equipment to achieve compaction of the incomings wastes. This includes working to prevent ponding over the waste area and the prevention of sedimentation leaving the site (erosion control).

Please contact me if you have any questions or concerns regarding this inspection report.
