Re: Quarterly Progress Report
July 2011 through September 2011
DuPont-Kentec Site
4610 Braxton Road
Grifton, North Carolina
Site ID No. NONCD 002818
URS Project No. 18985580

Dear Ms. Macdonald:

This quarterly progress report has been prepared by URS Corporation–North Carolina (URS), to document progress at the DuPont-Kentec site located at 4610 Braxton Road (the site) in Grifton, North Carolina during the period of July 2011 through September 2011. This quarterly report meets the requirements set forth in Section III E of the consent agreement entered into by DuPont Corporate Remediation Group and Unifi Kinston, LLC on June 4, 2010. During the period of July 2011 through September 2011, the following activities were completed or are currently ongoing:

- On June 4, 2010, DuPont Corporate Remediation Group (DuPont) and Unifi Kinston, LLC (Unifi) entered into an Administrative Agreement (AA) for Registered Environmental Consultant-Directed Assessment and Remedial Action pursuant to N.C.G.S. 130A-310.9(c) and 15A NCAC 13C .0300 for the site.
- As documented in the Quarterly Progress Report April 2011 through June 2011, dated July 5, 2011, Parsons removed approximately 10,000 gallons of water remaining in the various vessels (e.g., storage tanks, ultrox system, carbon canisters) associated with the former pump and treat system/infiltration gallery that was used at the site. According to Parsons the water was sampled for waste characterization purposes and transported to Republic Landfill in Aulander, NC for disposal. The removal of the former pump and treat system and associated appurtenances was completed by Parsons between August 8 and August 12, 2011. Even though the removal of the water and the remedial equipment from the site property is considered to be independent of the activities associated with the requirements of the June 4, 2010 REC AA, this information has been included herein to provide the REC Program with environmental related activities occurring at the site.
- On August 8, 2011, URS submitted a Groundwater Sampling Notification per Corrective Action Plan Modification (dated October 2005), to Ms. McDonald of the NCDENR

URS Corporation-North Carolina

informing the REC Program that groundwater sampling activities were scheduled to occur in late August/early September in accordance with the sampling requirements put forth in the Corrective Action Plan Modification submitted to the NCDENR in October 2005 and approved by the NCDENR in January 2006.

- On September 12, 13 and 14, 2011, groundwater and surface water samples were collected from eighteen (18) monitoring wells and four (4) surface water sampling points. Sampling activities were completed in accordance with the sampling procedures documented in the October 2005 Corrective Action Plan Modification.
- On September 15, 2011, a potable water well survey was completed to update previous water well surveys to identify households that may utilize groundwater for potable uses within the ½ mile radius as specified within NCDENR-IHSB guidance documents.

Work at the site, being completed in accordance with the requirements of the June 4, 2010 REC AA, is progressing in a manner to achieve the mandatory work phase completion deadlines set out in 15A NCAC 13C .0302(h).

-oOo-

The required certifications by the remediating parties and the REC are attached. Please call me at (704)522-0330 with any questions.

Sincerely,

URS CORPORATION – NORTH CAROLINA

Robert H. MacWilliams, PG
Registered Site Manager
