MEMO

TO: File
FROM: Chester Cobb *Chester Cobb*
DATE: June 30, 2014
RE: Closure of Permit SLAS-25-01

Mr. Randy Register had been working to take over the Septage Land Application Site in Craven County permitted to Mr. Leslie E. Wainwright under Permit #SLAS-25-01 since July 2013. Mr. Register is the owner/operator of R&D Septic Tank Pumping which operates as a permitted Septage Management Firm under Permit #NCS-01263. R&D Septic Tank Pumping was issued Permit #NCS-01263 on July 24, 2013 and as of today permitted. Mr. Wainwright had given Mr. Register permission to use septage land application site under Permit #SLAS-25-01 for 2013. The expiration date for Permit #SLAS-25-01 is May 19, 2016.

On December 2, 2013, Mr. Register submitted an Application for a Permit to Operate a Septage Land Application Site. The application was submitted for the site that is permitted to Mr. Wainwright under Permit #SLAS-25-01. During a phone conversation with Mr. Register on March 6, 2014 concerning the submitted application, Mr. Register informed me that Mr. Wainwright had passed away about 4.5 months ago.

On June 19, 2014, Permit #SLAS-25-12 was issued to Mr. Register to operate the septage land application site that was previously permitted to Mr. Wainwright as Permit #SLAS-25-01. With the new permit being issued, Permit #SLAS-25-01 has now been closed.

**AUTHORIZATION TO DISCHARGE SEPTAGE AT A SEPTAGE LAND APPLICATION
SITE PERMITTED TO SOMEONE OTHER THAN YOURSELF**

(This form is used by a land application site permit holder to indicate that permission has been given to a permitted Septage Management Firm to land apply septage on the permit holders land application site.)
